

# Protect Your Family From **ZIKA** With These Products

These products are readily available in stores.  
Always follow label instructions.

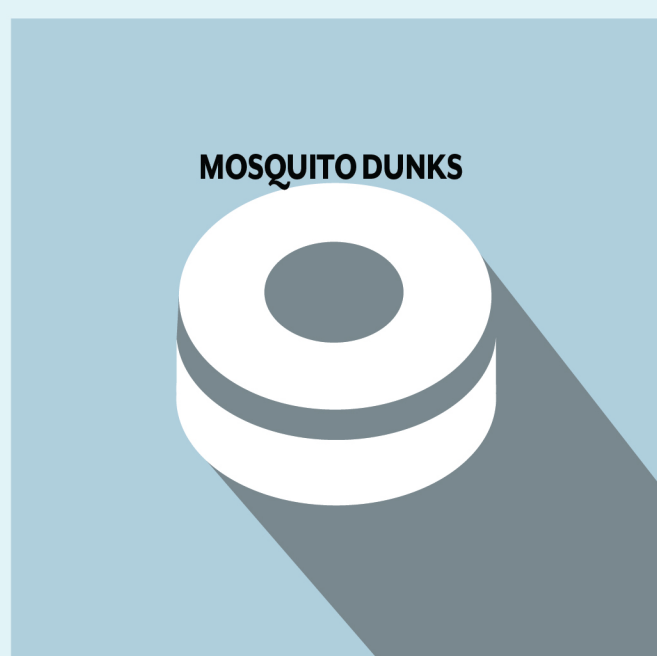

**BUG REPELLENT FOR YOUR SKIN** Spray repellent on your skin, but not on your skin under clothing.

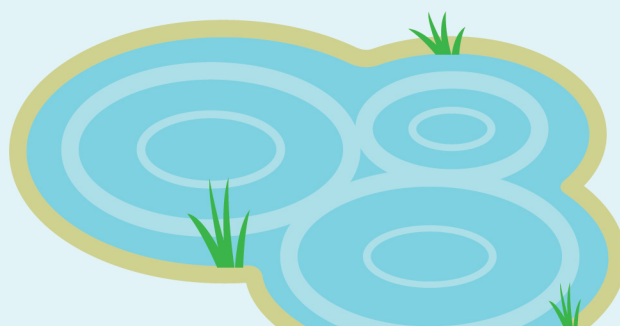

**PERMETHRIN-BASED REPELLENT FOR CLOTHING & GEAR** Spray on clothing and gear only, not your skin.

**CONDOMS** If you or your partner may have been exposed to Zika, use condoms or other barrier methods during sex to prevent sexual transmission.

**MOSQUITO DUNKS** Use dunks to kill mosquito larvae in standing water you can't get rid of like fish ponds, roof gutters and rain barrels. Do not put them in water you or your pets drink—mosquito dunks contain BTI.
